- S. EDWARDS (Tel. Adwick-le-Street 2156)
- J. GOODINSON (Tel. Adwick-le-Street 2191)
- H. LE VANN (Tel. Adwick-le-Street 2244)
- M. WATTS (Tel. Adwick-le-Street 3387)

(m) Mental Health Welfare Officer:

- F. L. JOHNSON (Tel. Barnby Dun 559)
- J. JACKSON (Mrs.) (Tel. Don. 56128)
- J. HURLEY (Miss) (Tel. Snaith 269)

(n) Speech Therapist:

- P. M. WARDEN (Resigned August, 1962) E. MAXWELL (Mrs.)
- (o) Senior Clerk:

C. W. VALLANCE

Deputy Senior Clerk:

M. L. AUSTIN

3. TRAINING CENTRE STAFF

- (a) Supervisor:
 - A. THORP (Miss)
- (b) Senior Handicraft Instructor
 - S. SHOOTER

Handicraft Instructor A. DILKES

(c) Teachers:

M. GASCOIGNE (Mrs.)

B. BROWN (Mrs.)

S. M. LEAM (Miss)

A. SMYTHE (Mrs.)

P. WARCUP (Miss)

4. WARDENS TO THE AGED

Mrs. P. STATON, 20 Fairview Avenue, Woodlands, (Tel. Adwick-le-Street 3331)

Mrs H. MORRIS, 14 Princess Street, Woodlands, (Tel. Adwick-le-Street 3319)

Mrs. A. BRICE, 36 Shaftesbury Avenue, Woodlands, (Tel. Adwick-le-Street 2388)

Mrs. H. Fletcher, 77 Chestnut Avenue, Carcroft, (Tel. Adwick-le-Street 2345)

Mrs. A. RAYNER, Chestnut View, off Edward Rd., Carcroft

Mrs. F. M. HIBBERT, 108 South Street, Highfields.

Mrs. I. I. HAWKSLEY, 77 Coppice Road, Highfields.

URBAN DISTRICT COUNCIL OF ADWICK-LE-STREET

Public Health Department,
Council Offices,
Village Street,
Adwick-le-Street.
August, 1963

To the Chairman and Members of the Adwick-le-Street Urban District Council

Mr. Chairman and Gentlemen,

I have pleasure in submitting my Annual Report on the Health and the inhabitants for 1962. I have also included a report on the personal health services carried out under my direction as Divisional Medical Officer.

The Vital Statistics are an indication of the health and welfare of the inhabitants and those for 1962 show:—

- 1 The population shows an increase to 18,270. The population has shown small fluctuations over the last ten years but has has not exceeded 19,000 since 1947.
- 2 The birth rate shows a slight increase over 1961, there being 342 births in 1962 compared with 338 in 1961.
- 3 As in 1961, there were 9 deaths of children under one year of age.
- 4 The death rate has decreased, there being 176 deaths in 1962 compared with 207 in 1961. It is interesting to note that there was a marked decrease in the number of fatal road accidents from 10 in 1961 to 1 in 1962.
- 5 One mother died from childbirth.
- 6 There was a decrease in the number of infectious diseases, there were no cases of Poliomyelitis during the year.

- 7 The care of the mentally sick and mentally handicapped is recorded in the report. During the year 206 mentally sick cases in the Division were referred to the Mental Welfare Officer and 190 of these were admitted to hospital.
- 8 The Welfare of the Aged continues to receive attention and in addition to the normal Warden's Scheme a pilot Warden Scheme under the Aged Person's Welfare Committee was commenced for aged people not living in Council bungalows and flats.

I would like to express my appreciation to Mr. Senior, the Public Health Inspector, who has been responsible for the writing of the second part of this report on the sanitary circumstances of the area, and the staff of the Health Department for their valued help and co-operation, and also to all members, professional and clerical of the staff of the Divisional Office.

I would also like to express my sincere appreciation to you, Mr. Chairman, and the Members of the Committee for the courteous reception of my reports through the year.

I have the honour to be, Gentlemen,

Your obedient Servant,

J. FERGUSON,

Medical Officer of Health.

From 1949 the death rate figures are corrected

COMMENTS ON VITAL STATISTICS

Population and Birth Rate

The Registrar General's figures show an increase in the population from 18,180 to 18,270.

The Birth Rate shows an increase compared with 1961.

There were 25 illegitimate births compared with 22 in 1961. The Moral Welfare Committee of the Archdeaconry of Doncaster and Rotherham continue to be most helpful in these cases and arranges, with financial assistance from the West Riding County Council, accommodation for unmarried mothers in their Church Homes, when requested.

Death Rate

The Infantile Mortality rate shows a decrease from 26.6 in 1961 to 26.3 in 1962 per 1,000 live births. The tables show that four occurred in the first week of life.

There was a decrease in the No. of deaths by 31 bringing the total deaths for 1962 to 176 giving a crude death rate of 9.6. There were 26 deaths from Cancer compared with 33 in 1961 and of these 4 males (no females) died from Cancer of the Lungs. Heart diseases and associated diseases continue to be the commonest cause of death there being 61 such cases in 1962 compared with 56 in 1961. There were no deaths from Tuberculosis compared with 1 in 1961.

There was one death associated with childbirth.

COMPARATIVE VITAL STATISTICS FOR THE YEAR 1962 COMPARABILITY FACTORS

Births - 0.97

Deaths - 1.42

The following table shows an interesting comparison between the Authority's vital statistics and those of the W.R.C.C. Urban Authorities, the West Riding as a whole, and England and Wales as a whole.

CRUDE RATE	Adwick- ie-Street Urban District	Aggregate West Ridlng Urban Districts	West Riding Admin, County	England and Wales

Early Neo-Natal Mortality	11,1	*	÷	*
Perninatal Mortality	34.3	30.6	31.5	
Stillbirths	22.9	18.0	18.5	18.1

*Figures not available

Maternal Mortality Rate per 1,000 live and stillbirths. Infantile Mortality Rate per 1,000 live births. Neo-Natal Mortality Rate per 1,000 live births. Early Neo-Natal Mortality Rate per 1,000 live births. Perinatal Mortality Rate per 1,000 live and stillbirths. Stillbirths Rate per 1,000 live and stillbirths.

Social Conditions

The Chief occupation of the inhabitants of the district are coal mining, railway work and engineering, with tradesmen and shopkeepers who cater for their needs.

2 MATERNITY SERVICE.

As more General Practitioners book maternity cases and carry out ante-natal examinations in their own surgeries there is a corresponding reduction in the number of attendances at Local Authority clinics where a medical officer is in attendance.

Continued co-operation is maintained with General Practitioners and as each relaxation and health education class is commenced practitioners are now notified in addition to personal visits from Midwives and Health Visitors.

Where practitioners hold ante-natal sessions in their surgeries Midwives are in attendance, if duty permits.

Ante-natal, Post-natal Clinics and Relaxation Classes are held at Woodlands and Carcroft Child Welfare Centres for this District.

(a) Ante-Natal Clinics (Divisional Figures)

Total No. of attendances:	Ante-Natal 2746	Post-Natal 118	Total 2864
No. who attended first tim during the year		109	492
(b) Relaxation Classes	290		2101

(c) Midwives

There is a full complement of midwives in the area, and appended is a table of the domiciliary midwifery and visits carried our during the year:

		Domiciliary Case	s	
Doctor not	Booked	Doctor	Booked	
Doctor present at delivery	Doctor not present at Delivery	Doctor present at delivery (either booked doctor or another)	Doctor not present at Delivery	Total
4	74	46	100	224

No. of Ante-Natal Visits	 	 1965
No. of Post-Natal Visits	 	 4523

During the year there were 74 requests to doctors for medical aid by the midwives throughout the area.

Pregnancy	 		 	39
Labour	 	• • •	 	17

Children included in above who were under 5 years of age at the time of first visit during the year	124	1021
Patients included in above who have had more than 24 visits during the year	492	33740

4 HEALTH VISITING

Health Visitors carry out duties in connection with child welfare, school health, care of the aged, etc., and one Health Visitor is employed solely on Tuberculosis visiting, attending at the Chest Clinic and maintaining liasion with the Chest Physician.

Care of the aged and Health Education has taken up a lot of the Health Visitor's time and the frequent visiting of old people and arranging for home help, chiropody etc. is a very important part of her duties.

Health Visitors attend the Co-ordinating Committee when problem families are being discussed.

A good liasion has been established between most General Practitioners and the Health Visitors.

5 HOME HELPS

The Home Help Service continues to render valuable service to people in their own homes.

With the acute shortage of beds for chronic sick people, the Home Help Service helps very much in enabling people to be kept at home and also by allowing earlier discharge from hospital than would normally be possible.

The equivalent of 71 full-time Home Helps were employed working a total of 156,103 hours, and attending 683 cases of whom 614 were over 65 years of age.

7 WELFARE OF THE AGED

The main function of the Committee for the Welfare of the Aged, sponsored by the Adwick-le-Street Council, which consists of members of that authority together with persons interested in the aged, is the Chiropody Service.

Chiropody Service.

This service is now held at Woodlands and Carcroft Child Welfare Centres and Highfields Welfare Hall, and is greatly appreciated by the old folks who are thus enabled to get about in comfort.

The attendances during the year are given below:—

		W'dlands	C'rcroft	H'f'ds
No. of Clinics held	 	97	42	26
No. of persons attended	 	177	97	52
No. of treatments given			223	192
No. of persons treated:—				

Pensioners 56 Physically Handicapped 1

No. of treatments (Domiciliary)

Pensioners 128 Physically Handicapped 4

In addition to aged persons, this service has been extended to expectant mothers and physically handicapped persons and is a free service to all.

Warden Scheme

Since this scheme was inaugurated in 1958 with the appointment of one Warden, it has been extended and now there are five Wardens and two Relief Wardens.

In addition to the Wardens employed by this Council, two Wardens and one Relief Warden were appointed by the Old People's Welfare Committee to visit private houses in the Highfields area.

This is a pilot scheme and conditions of service are similar to the conditions of the Wardens in the Council's employment.

All Wardens have telephones installed in their homes and this is an important link between the Wardens and the Health Department.

A Recreation Room for the Aged of Carcroft and District has been opened with a resident Warden. The building consists of one large room, committee room, kitchen and laundry room. It is open from 10 a.m. to 9-30 p.m. and it is hoped it will be fully used by all the aged persons in the district.

8. SCHOOL HEALTH

Eye Examinations

The eyes of children are tested by the School Nurse and those whose vision is worse than 6/9 Snellin in one eye are referred for a further examination by the Opthalmologist at Wood Street, Doncaster.

Routine Medical Examinations

The following table shows the type of defects discovered at routine medical examinations during the year.

Cleanliness Inspections

During the year routine cleanliness inspections were carried out at every school in the division by the School Nurses and a total of 23,846 inspections and re-inspections were made. 933 pupils were found to be infested but in the majority of cases infestations were slight. Treatment and advice is given by the School Nurses. No Statutory Notices were issued during the year.

SPECIAL EXAMINATIONS

School Children

In accordance with the requirements of the Education Act, 1944 and the Children and Young Persons Act, a number of children were referred by the Education Department which necessitated special examination.

During the year 549 such children were seen with the following recommendations.

1	To continue attendance at present school	15
2	Certificates of freedom from infection before returning to special school after holidays	149
3	Employment Officer (Medical information for	
	employment purposes)	116
4	Referred to Child Guidance Clinic	11
5	Recommended as likely to prove unsuitable for	
	education in ordinary school	4
6	Recommended for supervision after leaving	
	school	12

Ascertainment of Deafness

Provision was made for the opening of an Audiology clinic at special premises in the Yorkshire School for the Deaf in Doncaster in March, 1961.

The findings at this clinic have underlined the importance of early diagnosis of all degrees of deafness in young children - and the earlier, the better, in order that medical, educational and auditory help can be given as soon as possible.

Details of clinics held:—

No. of clinics			•••	16
No. of attendances				
Ages of children referred:	18	months	to 15	years.

Recommendations:

Hearing Aid recommended	 	13
To sit in front of class	 	13
To attend Speech Therapist	 	6
To attend School for Deaf	 	3

Prevention of Tuberculosis

The B.C.G. scheme was continued throughout the year and protection was offered to children from 13 years of age who showed, by previous testing, that they had not developed an immunity.

Not	ascertained		 	20
No.	Vaccinated		 	779

9 MENTAL HEALTH SERVICE

Staff consists of two Mental Welfare Officers and their work continues to expand.

The Mental Welfare Officers are responsible for admissions to Hospitals and After-Care work. During the year 260 cases were referred and 190 were admitted to Hospital.

There is an excellent liasion between the Mental Welfare Officers, General Practitioners and Hospital staff. Case Conferences are held at regular intervals and these Meetings enable Mental Health Officers to enlarge their knowledge on problems of mental illness.

Regular visits are made to the Out-Patients Clinic at Doncaster Royal Infirmary, and background reports are submitted for Consultants.

Mental Health

10 SPEECH THERAPY

This Division still lacks the services of a full time Speech Therapist. The service of a part time Speech Therapist has been obtained, but she is only able to deal with a very small proportion of children requiring help.

11 RECUPERATIVE HOME TREATMENT

Under the West Riding County Council's scheme nine patients were admitted to Recuperative Homes during the year. Admission to these homes is on a doctor's recommendation and each case is assessed on a scale of charges.

In addition, a mother and three children were admitted to a home which carries out rehabilitation work to problem families.

12 PROBLEM FAMILIES

A co-ordination Committee, for which I am the Designated Officer, meets regularly to discuss these families. Representatives from interested bodies including the Children's Department, Welfare Department, National Assistance Board, Probation Officers, N.S.P.C.C., and Public Health Inspectors are invited.

The County Council, will, in certain cases, guarantee rent payments, over a limited period in order to try to prevent the break-up of the family. Of the twelve families discussed during the year two were assisted in this way.

13 AMBULANCE FACILITIES

This scheme still operates satisfactorily. There is a free ambulance and sitting car twenty-four hour service for everyone. The vehicles are stationed at Yarborough Terrace, Bentley and are available on request from doctors and nurses or from the general public in an emergency.

14 SPECIAL EXAMINATIONS

Throughout the year special examinations are carried out for the Council of all staff (officials and workmen) who commence work for the Council. Medical examinations and consultations are also held with members of the staff who have prolonged absence with sickness.

Similar examinations are carried out for the West Riding County Council and also of intending teachers prior to admission to college.

SECTION C

SANITARY CIRCUMSTANCES OF THE AREA

1 Water

This District has representatives on Doncaster & District Joint Water Board. The water supplied to the whole of the area is sufficient and wholesome.

2 Rivers and Streams

The Mill Stream, the River Skel and the Ea Beck flows through the area.

3 Drainage and Sewerage

The effluent from the sewage works continues to be classified as satisfactory. With the erection of the new Council Houses, the capacity of the existing sewage works has now reached its maximum, and consideration is being given to the sewage of the district generally.

4 Scavenging

This is carried out by the Council's Surveyor. Refuse is tipped on land adjoining the Sewage Works, the Ea Beck at Bentley Moor Lane and Crossfield Lane.

5 Rainfall and Temperature

Your Surveyor, E. A. Daubney, Esq., has kindly supplied me with a copy of the recording of rainfall and temperature throughout the year.

	RAIN	FALL	ТВ	CMPEF	RATUR	E
Month	Year	Year	Min.	Deg.	Max.	Deg.
	1962	1961	1962	1961	1962	1961
January	1.40 3'' snow	3.34	19	24	53	54
February	.31 2.02" snow	1.20	28	30	49	56
March	1.17 5'' snow	0.25	17	29	52	64
April	2.79	2.96	30	35	62	65
May	5.23	1.15	33	32	66	76
June	, 66	1.16	34	39	74	.84
July	3.01	1.50	47	40	68	87
August	6.24	2.09	47	42	68	87
September	6,02	1.57	41	35	65	79
October	.95	2,33	28	33	62	68
November	3.15	0.67	26	22	56	58
December	1,43	1.13 1.04"snow	17	17	50	55

The wettest day of the year was Wednesday, 11th July with a tainfall of 2.29 inches, the hottest day was Friday, 15th June with a temperature of 74 deg. F and the coldest days were Tuesday, 6th March, and Tuesday, 25th December, with a temperature of 17 deg. F.

6 Offensive Trades.

Fish Frying - there are 11 shops in the area and 17 inspections were made.

Knackers Yard - None in the area. Common Lodging Houses - None in the area.

7 Schools

There are seven primary school departments, two secondary modern schools, and one grammar school. In addition, the R.C. school is an all department school.

No schools were closed during the year.

There are five school canteens in the area.

HOUSING

Four houses were built in this district during 1962, and six were demolished (Slum Clearance). The number of houses in the various wards are:—

· ·				
Skellow		 	 	996
Carcroft		 	 • • •	1205

Tuberculosis

No action was taken under the Public Health (Prevention of Tuberculosis) Regulations, 1953 or under Section 172 of the Public Health Act, 1936.

There were no deaths attributed to Tuberculosis during the year.

The number of cases in the Tuberculosis Register at the 31st December, 1962, compared with the previous year was:—

	19	61	19	62
	M	F	M	F
Respiratory	 70	47	67	48
Other Forms	 23	8	24	11

Care and After-Care of Tuberculosis

A special Committee for this purpose has been established for some years. The Committee consists of lay members and representatives of the Medical Officer of Health in Doncaster and District. Financial assistance is given to the Committeee by the West Riding County Council and the Doncaster County Borough.

It has been possible to help many cases with clothing, bedding, etc. This Committee carries out most useful work, and the advice of the special Health Visitors for Tuberculosis is always available.

The Tuberculosis Health Visitor continues to prove a most valuable link between the Consultant at the Chest Clinic and the Medical Officer of Health. Background reports are submitted to each officer, and this home visiting enables the Chest Physician to be assured that his advice is being carried out.

The County Council also provide free milk up to two pints per day to cases recommended by the Tuberculosis Officer.

J. FERGUSON,
Medical Officer of Health

URBAN DISTRICT COUNCIL OF ADWICK-LE-STREET ANNUAL REPORT OF THE PUBLIC HEALTH INSPECTOR

W. SENIOR, M.A.P.H.I. FOR THE YEAR 1962

To the Chairman and Members of the Urban District Council of Adwick-le-Street

Gentlemen,

I have pleasure in submitting my annual report for 1962, in which are set out details of inspections made and notices served, both informal and formal, under the provisions of the several Acts of Parliament, and ministerial regulations, which empower Local Authorities to carry out their duties. Details of work carried out as a result of services of notices are also recorded.

HOUSING ACTS

- (a) Repair of Defective Dwelling Houses During the year 122 houses were repaired. Of these 118 were repaired after informal action had been taken. In four cases only was statutory action necessary.
- (b) Overcrowding There is still some overcrowding in the District notwithstanding a large increase in the number of new houses but only a slight increase in the population.

RENT ACT 1957

There have been no applications for certificates of disrepair during 1962. 328 applications were received for standard grant and all were approved. This figure includes application from the National Coal Board as follows:

Skellow	 	 	70
Woodlands		 	245

CARAVANS

Small encampments of caravans have continued to occupy grass verges on the outskirts of the District. It would seem that unless a strict supervision of these places is maintained that the matter could get out of control.

FLOODING

After heavy storms, flooding and overflowing of sewers occurs in several places but the Council's scheme for re-sewering the District will put the matter right.

Whilst this area did not receive the full blast of the two hurricanes which swept parts of South Yorkshire, considerable damage to property was caused, calling for many repairs which I am pleased to say have now been completed.

REFUSE TIPS

Both of the refuse tips, one in Bentley Moor Lane, and one in Crossfield Lane, are not completely fenced off and consequently there is some trespassing and tip picking. It is difficult to understand why people should think that valuable things are deposited in such places.

During the year two persons were caught and subsequently prosecuted and convicted for sorting over and disturbing Bentley

Moor Lane Tip.

AIR RAID SHELTERS

Both surface and underground shelters continue to take up much time. As previously reported it would appear that the only way to secure their demolition and the re-instatement of the site is when the shelters are partially demolished and structurally dangerous. During the year 36 surface shelters and 2 underground shelters have been represented as dangerous to the public and demolished. Five Communal Shelters and one Wardens Post have also been demolished.

RODENT CONTROL

Every effort is made, each year, to survey the District completely for rodent infestation. It is not always possible to visit each individual dwellinghouse or hut although this is attempted.

Rat infestation exists mainly where the food supply is available During the past year 152 treatments have been carried out as a result of which 334 rat bodies and 36 mouse bodies have been recovered and disposed of. The number of live rats left after a treatment is of more importance than the number of bodies recovered so re-treatments are carried out when necessary.

There are still a number of dwelling-houses where the cold water storage tank is housed in the roof area. In winter they are soon frozen up, and in summer time when bird life is active we are called upon to investigate complaints of birds feathers appearing in the hot water supply.

Because of the rather hard water the fire back boilers do not last long and it would be an interesting point as to whether any of the expense involved in renewing fire back boilers would be saved by softening the water.

Several drainage problems have occurred during the year, some having been caused by subsidence. These are not a matter which can be quickly put right because of settlement. Considerable progress has been made in relaying affected drains although in a mining district this is one problem which is likely to remain. The modern use of pitch fibre pipes is likely to prove of great value in these cases in the future.

During the year it was found necessary to recommend the closure of a school because of a drainage difficulty and the possible danger which would arise to children and adults being fed on the premises.

In another case where a strong smell was complained of the Gas Board were asked to investigate, as a result of which several disused gas mains were sealed off.

In 1960 the attention of the Education Authority was called to the condition of the sanitary accommodation, hot water supply and hand washing facilities in the several schools in the District and it is pleasing to report that a much higher standard now prevails.

TOWN & COUNTRY PLANNING

An application to build piggeries was opposed on Public Health grounds and although an appeal was lodged this was subsequently withdrawn before the hearing.

PROBLEM FAMILIES

Each year we get a number of problems concerning family life which have more recently been known as problem families. A committee has been formed, to try to help, and it is hoped that what we do is of some use.

I would like to take this opportunity of thanking the Council for the privilege of attending the course of Public Health Aspects of Radio-activity, at Bradford Institute of Technology, and the Civil Defence Staff College at Sunningdale.

In conclusion I would like to express my appreciation to the Chairman and Members of the Council and the Committees, and the Medical Officer of Health, for their assistance and consideration of the many and varied problems which have arisen throughout the year.

I have the honour to be, Gentlemen,

Your obedient Servant,

W. SENIOR.

Public Health Inspector

ICE CREAM (Heat Treatment Etc.) REGULATIONS, 1947-52.

The Regulations broadly require that, subject to certain qualifications the ingredients of ice-cream shall be heat-treated after being mixed, and that the mixture shall then be cooled until the freezing process has begun. After freezing, the ice-cream must not be sold unless it has been kept at a temperature of not more than 28° F, unless it has again been heat treated and then kept at not more than 28° F after being frozen.

In the circular accompanying the regulations, it is stated that as yet no test has been devised, the reliability of which is sufficiently established to justify its use as a statutory test, non-compliance with which would constitute an offence. However, attention is being drawn to a form of methylene blue test, and it is suggested that if out of the four grades recommended ice-cream consistently fails to reach Grades 1 and 2, it would be reasonable to regard this as indicating defects of manufacture or of handling which calls for further investigation.

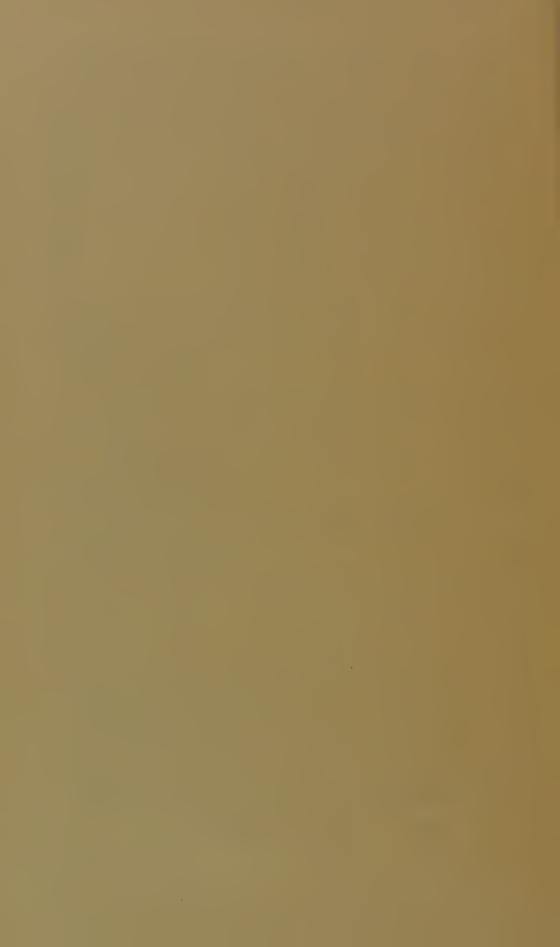

Of the 115 ice-cream samples taken:—
107 or 93.05% samples were in Grade 1 - Satisfactory
8 or 6.95% samples were in Grade II - Satisfactory
